

Hola MARU

Soy NORMA C LOPEZ NUNEZ
A# [REDACTED]

El día 3 el official Ms. LOPE Ex preso Químicos en la MESA y lo hizo de una distancia elevada todo el Químico Voto fuimos afectadas Algunas Me jese Es pual Mente yo con Ardor en la gorgenta, en los ojos, picazón en los brazos Me llevaron al Docta. y me dieron una CREMA, yo le dije a la official que estaba muy fuerte el Químico, Siguo ex prayando.

Hoy día 5 se Repito con otro official viendo lo mismo, Me Guise volver Loca de desesperación Como los BRAZOS me picaban ella vino verme y lo escribio en el libro y me Mando al Medico. el Medico lo Reporto al Subteno

Las officials Reciben los galones Concentrados de Químicos pero no lo rebajan con agua ya hemos mirado algunos officials que hacen esto. y ellas dicen que Nadie les o dicho que es lo que tienen que hacer. con los Químicos que nadie les o enseñado, — Norma C Lopez

Hello Maru,

I am Norma C. Lopez Nunez

On the 3rd the officer Ms. Love sprayed chemicals on the table from high above. The chemical flew everywhere and we were all affected. Some of us, especially me, began feeling burning in our throats, in our eyes, and itchiness on our arms. They took me to the doctor and gave me a cream. I told the officer that the chemical was too strong, but they kept spraying.

Today is the 5th, and the same thing happened with another officer. I felt I was going crazy with desperation, which how much my arms were itching. She came to see me and took a note in the book and sent me to the doctor. The doctor reported it to the [Rutena? Cannot decipher].

The officers get gallons of concentrated chemicals but don't dilute it with water. We have seen other officers do the same, and they say no one has told them what they're supposed to do with the chemicals. No one has taught them what to do.

Norma C. Lopez
